Focus Information Systems Announces Partnership with Accelbus Systems for Distribution of the Velocity LBM Solution

Velocity LBM is Immediately Available; Built on SAP® Business One

PALM HARBOR, Fla. – Jan 18, 2010 – Focus Information Systems, LLC (Focus) today announced the selection of Accelbus Systems, LLC (Accelbus) as the newest representative for the Velocity LBM solution. Focus is working with selected channel partners to distribute and support their Velocity LBM solution throughout the United States and Canada. “ Velocity LBM extends our product offering and will allow Accelbus to serve the distribution channel of the building materials industry. This is a natural extension for Accelbus Systems, an SAP channel partner that has been consulting and installing the SAP® Business One application in manufacturing concerns serving this industry.” – Peter Illari, Principal at Accelbus Systems, LLC

“We are very excited to welcome Accelbus as a Velocity LBM partner. Accelbus was chosen based on their industry knowledge as well as their reputation for outstanding customer service.” – Bob Welch, president of Focus

Velocity LBM provides a complete business solution to customers in the lumber and building materials industry. The Velocity LBM solution includes and builds upon the functionality of SAP Business One. Velocity LBM is the first product fully integrated with Microsoft Windows tailored to meet the specific needs of the lumber and building materials industry. Velocity LBM helps companies achieve operational efficiency, create new revenue channels, optimize customer service, and provide accurate data analysis.

Accelbus is an authorized SAP channel partner for SAP Business One, providing small and midsize businesses in the lumber and building materials industry the technology, business processes and consulting knowledge to easily adopt successful, long-term strategies focused on growth and efficiency. Velocity LBM is built on the foundation of SAP Business One, provided by a worldwide leader in application software and designed by industry experts with more than 40 years of combined experience developing solutions for the lumber, building materials and millwork industries.
